

2013 RAM 3500 Suspension

New front and rear suspensions deliver enhanced ride and handling. An advanced three-link front suspension on Ram 3500 ensures roll stiffness, contributes to the higher Gross Vehicle Weight Rating (GVWR), and aids use with heavy front loads, including snow plows. That's how Ram 3500 delivers **best-in-class towing of up to 30,000 lbs.**

Front:

4x2 and 4x4

- Three-link with coil springs and stabilizer bar
- Stabilizer bar diameter (mm) — 35
- Spring Rate — Various, based on configuration
- Shock Type — Full Displacement Twin-tube
- Wheel Travel (jounce / rebound) (mm) — 102 / 86

Rear:

4x2 and 4x4

- Hotchkiss leaf spring suspension, solid axle
